TESTIMONIALS

"What an amazing job the students did. They provided so much information with such a short amount of time that will be taken into consideration for our present and future business plans. All information and data are going to help our business grow with professional guidance. We will implement all their recommendations as we see necessary. They exceeded our expectations, and we are very happy and honored they selected us for their MBA final project, wish them all great success in their careers." - LA Tacos and Kabobs

“Thanks to all the students because the information you will provide at the end of this project will be extremely valuable, and there will be a lot of learning for us. As a non-profit, we do not have the bandwidth to carry out research and analysis. So, the projects and the deliverables will be beneficial for us in enhancing our services both on the clinical side and the front-end side.” – Southern California Counseling Center

"Thank you for sending the maps. The data library is the most helpful for our continuous mapping project. I hope the project was enlightening and instructive for your students." – LA County Metro Authority

"Comprehensive and brought valid points to my attention. Eye-opening presentation!" - Alliance Eye Med Group

“Thank you for welcoming us to your class and for allowing your students to work with us. We truly enjoyed learning from your students as well. They all provided such great information and each and everyone of them are incredibly creative. You should be proud of the work they were able to do. Thank you for sharing the recordings with us as well. I am going to download the recording and save it to our files. We also look forward to reading and sharing with our team the written reports from your students. I hope they all get A's for the amazing efforts. " - Co-Founders HFS

"... the details presented were eye opening about where we stand as a company. I will be implementing new guidelines to be more successful in the years to come" – Small Business Owner

"I was very impressed with the students' findings as they addressed all of my requirements. I will definitely be implementing a few of the suggestions" - Artur Kasabyan, Bird Box Wings

"..a great project because being a small business you sometimes feel like you don't know where to look. This group tackled a part of the business individually and presented a game plan that made sense" – Small Business Owner

"We were highly impressed by their presentation in so many ways but what stood out was that the group provided valuable and practical expert advice in improving our company's future performance." Small Business Owner

"The students exhibited remarkable dedication and delivered a presentation that was both cohesive and comprehensive. The business recommendations, especially those concerning website functionality and communication devices, are invaluable for our organization. I was particularly impressed with the visual representation of our customer base, the insights into team accountability, and the thoughtful suggestions for onboarding new employees. The effort and dedication demonstrated by the LACA consulting team are truly commendable, and I am confident that their recommendations will significantly benefit our organization." - Hailey Loman, Director, Los Angeles Contemporary Archive

"The Cal State Students did a great job with the project. They were thoughful, detailed and very professional. We have worked with many other universities. This is one of the best presentations. We are already planning to implementsSome of the recommendations provided by the students." Usha Adhikari, President Rukmini Foundation, Nepal
