Abstract of Information Available

A total of one cultural item has been requested for repatriation. The one object of cultural patrimony is a willow conical basket with a leather tip. Despite an exhaustive search of available records, no documentation has been found regarding its geographical origin, collection history, acquisition details, or other relevant information about the basket. As a result, we consulted with Dr. Jan Timbrook, a basketry specialist, to examine the object. Dr. Timbrook provided her expertise to help identify potential culturally affiliated Tribes based on the basket's style, type, and materials. She concluded that the willow conical basket with a leather tip may have originated from the Arizona region and could be associated with either the Havasupai or Paiute Tribes.

• The one object of cultural patrimony described in this notice has ongoing historical, traditional, or cultural importance central to the Native American group, including any constituent sub-group (such as a band, clan, lineage, ceremonial society, or other subdivision), according to the Native American traditional knowledge of an Indian Tribe or Native Hawaiian organization.

• There is a reasonable connection between the cultural item described in this notice and the Havasupai Tribe of the Havasupai Reservation, Arizona.
