

2025 PREC Summer Computational Molecular Science Program

Spend nine weeks this summer conducting computational molecular science research at Cal State LA – and earn a $5,400 stipend!

Partnership for Research and Education in Chemistry
PATHWAY TO DIVERSITY PROGRAM

ACTIVITIES

- Hands-on molecular modeling
- Independent research projects
- Practical high performance computing
- Mentoring and networking events
- Community building excursions
- Scientific conference participation

Online Application Dates:
March 3 - March 29, 2025

Program Dates:
June 9 - August 8, 2025
