New on Campus!

The World Leading Smart Waste & Recycling System

Bigbelly
SMART CITY SOLUTIONS

Bigbelly Smart Waste Stations can now be found on the Cal State LA campus!

Landfill

Recycling

You can now find smart Bigbelly waste stations around the Cal State LA campus!
This sustainable and innovative waste & recycling system keeps the waste contained and alerts the grounds crews when it needs to be collected. **Best of all, it is helping us bring recycling to Cal State LA!** Every station has both Landfill Trash (black) and Mixed Recycling (blue).Toss your landfill & recyclable waste in the correct bins to make an impact.

Recycling is easy with Bigbelly! Toss all recycling in the station with the blue opening. Just press the foot pedal & responsibly toss your trash! What can be recycled, you may ask?

Mixed Paper
Office paper, colored paper, envelopes, file folders, newspapers, magazines, junk mail, catalogs, paper bags, paper packaging, beverage cups, cartons, cereal boxes & paper egg cartons

Plastic
Plastics #1-7 (empty beverage and food containers, plastic cups & rigid plastics)

Mixed Metal
Empty aluminum cans, aluminum pans, clean foil, steel cans, and other metals

Container Glass
All empty beverage and food containers

Cardboard
Flattened boxes

Find these Smart Bigbelly Stations across the Cal State LA campus! You may notice that some trash bin locations have been removed since these hold 5X as much, but please don't litter... You can find the new Bigbellys across the Golden Eagle!
